

Thank you for participating in MICAH and thank you for your continuous efforts to recruit patients – “It always seems impossible until it’s done.” — Nelson Mandela

**318/1000** patients successfully recruited (326 SCREENED)

This quarter’s joint prize winners are:

**Barnsley & St George’s**

This quarter’s prize goes to the excellent teams at Barnsley with the highest recruitment rate since last quarter and to St George’s for their impeccable organisation during their on-site visit. Well done teams!

The teams will receive a £50 Amazon voucher each towards their department

GENERAL UPDATES

- **MICAH Recruitment ‘Ask us Anything’** – MICAH Q&A drop-in sessions are held monthly and are an opportunity for you to attend and discuss all your burning MICAH queries! You are encouraged to attend
- Please note that MICAH on-site monitoring visits are currently underway. You can expect to be contacted by the MICAH monitor for a date to accommodate a visit from us. Please let us know of any covid-19 considerations/protocols that are in place at your site before we attend.

MESSAGE FROM PROFESSOR MARK THURSZ – MICAH Q&A DROP-IN SESSIONS

Dear Investigators,

Over the last few months, it has been really challenging to recruit patients into clinical studies due to ongoing COVID19 challenges as well as staff burnout. It is crucial that we complete recruitment to MICAH which should provide us with novel insights on Alcohol-related hepatitis and novel biomarkers to help with the management of our patients. Hopefully selection of patients to recruit to the study should not be a problem. Effectively anyone admitted to hospital with alcohol-related liver disease should be eligible as the vast majority of these patients will either have alcohol-related hepatitis or decompensated cirrhosis due to alcohol-related liver disease. I am aware that some centres are finding recruitment tricky, so we are organising some Q&A drop-in sessions to help address any concerns or queries. Look forward to seeing you soon.

CURRENT MICAH DOCUMENTS

Don't get caught out! Ensure that your R&D department has issued local approvals to use these versions:

England and Wales

- MICAH Protocol v5.0 27OCT2021
- MICAH PISICF Adults with Capacity v4.0 27OCT2021
